Hibiscus sabdariffa belong to the adaptogen and as such used in Ayurvedic drinks. It is being used in health food and beverages as ingredient – its vibrant red color adds to the visual appeal of beverage and confectionary. This species is a native to China, from where it has globally distributed in the pantropic.

The health benefits of hibiscus tea include relief from high blood pressure and high cholesterol, as well as digestive, immune system, and inflammatory problems. It can also speed up the metabolism and help in healthy, gradual weight loss.
